

CF #5: Team Member Traits In Virtual Pharma Project Teams – Emphasis On Personal Attributes

Allan Marinelli

By

Dec 16, 2020 8:00 am EST

Virtual teams need more contact than traditional team meetings. The author noted: “This could be a silent killer for the functioning of a virtual team.”

Readers are invited to participate and contribute manuscripts for this series – please share your successful practices with others. Please contact journal editor-in-chief Paul Pluta at paul.pluta@comcast.net or journal managing editor Stacey Bruzzese at Stacey.Bruzzese@informa.com with comments or submissions for publication. INTRODUCTION Work life in pharma and many other industries has been significantly affected during the past year. COVID-19 has caused organization changes, working remotely, virtual meetings, civic lockdowns, service interruptions, and other changes intended...
