Protect employees Ensure products are safe Continue with as many operations as possible, in order to maintain profitability This article looks at some of the ways through which pharmaceutical firms have adapted and will continue to adapt going forwards, considering digital technologies (such as those required for remote working) to the reorganization of the workforce. The article follows on from two other coronavirus related articles by the author for the IVT Network: Sandle, T. (2019) Consideration of Covid-19 Prevention Measures For Those Working In GMP Pharmaceuticals And Healthcare Facilities,...
